PROFESSIONAL SUMMARY

Results-driven Technical Support Engineer with a diverse background spanning web development, Python/Django full-stack development, and healthcare revenue cycle (AR) management. Currently supporting enterprise systems at VRS, Noida, with a clear career goal of transitioning into DevOps engineering. Brings hands-on experience with scripting, Linux environments, Git workflows, web technologies, and a strong analytical mindset sharpened across 3+ years of professional and internship experience. Seeking to leverage technical depth and problem-solving ability in a DevOps or Cloud Infrastructure role.

WORK EXPERIENCE

Technical Support Engineer

Mar 2026 – Present

VRS Intelligent Innovative System Pvt. Ltd. | Noida, Uttar Pradesh

- Provide technical support for enterprise systems, diagnosing and resolving hardware, software, and network-related issues.
- Manage incident tickets, escalate complex issues, and ensure SLA compliance for client resolution timelines.
- Collaborate with development and infrastructure teams to identify root causes and implement permanent fixes.
- Document troubleshooting procedures and contribute to internal knowledge base for recurring issues.
- Gaining hands-on exposure to server environments, networking, and deployment pipelines — building foundation for DevOps transition.

AR Associate (Senior)

Apr 2025 – Feb 2026

Axtrics Pvt. Ltd. | Mohali, Punjab

- Managed Behavioral Health claims for psychiatrists and therapists across multi-payer environments (PIP, Workers' Comp, Commercial).
- Led Prior Authorization workflow, significantly reducing 'no-auth' denials for behavioral health services.
- Identified and resolved clearinghouse rejections and payer-level errors, maintaining a high clean-claim rate.
- Coordinated directly with insurance adjusters to expedite payments for complex WC and PIP claims.

Python Developer Intern

Jan 2025 – Jun 2025

Pisof Informatics Pvt. Ltd. | Mohali, Punjab

- Developed and maintained live web applications using Python, Django, and Django REST Framework (DRF).
- Built RESTful APIs and enhanced front-end interfaces using HTML/CSS to improve user engagement.
- Collaborated with team members using Git for version control and Agile sprint workflows.
- Delivered two production-ready Django projects: a Calorie Tracker app and a secure Authentication Module with session management.

AR Analyst

Jan 2024 – Apr 2025

Nath Outsourcing Solution Pvt. Ltd. | Mohali, Punjab

- Processed and submitted insurance claims with focus on accuracy and compliance (HIPAA, CPT, ICD-10, HCPCS).
- Verified insurance coverage and patient eligibility; resolved denied claims through research and appeal preparation.
- Posted payments and adjustments to patient accounts using HealthPac billing software.
- Managed aged receivables and coordinated with insurance companies to resolve billing disputes.

Bubble.io / No-Code Developer

Aug 2022 – Sep 2023

Brisk Logic Pvt. Ltd. | Punjab

- Developed the X-Stock Marketplace web application using Bubble.io, focusing on fast market entry and cost efficiency.
- Engineered custom JavaScript plugins for Bubble.io to extend platform functionality beyond standard features.
- Worked on Erste-Hilfe (Medical Course) platform; collaborated with stakeholders to translate business requirements into functional solutions.

EDUCATION

Master of Computer Applications (MCA) 2022 – 2024

Lovely Professional University, Phagwara, Punjab

Bachelor of Computer Applications (BCA) 2019 – 2022

AP Goyal Shimla University, Shimla, Himachal Pradesh |

CERTIFICATIONS & INTERNSHIPS

- ▶ **Python Programming Internship** — Maincrafts Technology (MSME Registered) (Feb – May 2026)
- ▶ **Python Full Stack Development** — Pisos Informatics Pvt. Ltd. (Jan – Jun 2025)
- ▶ **Java Internship** — Navodita Infotech (Feb – Mar 2024)
- ▶ **Front End Development – HTML** — Great Learning Academy (Jan 2022 - Feb 2022)
- ▶ **Core Java** — Internshala Mar – (March 2022 - May 2022)
- ▶ **React.js** — UdemyAug – (August 2023 - Oct 2023)

KEY PROJECTS

Django Authentication System — Python, Django

- Built a secure authentication module with Login, Signup, and Password Reset; implemented session management and secure password hashing.

Calorie Tracker Web App — Python, Django, Django ORM

- Designed a full-stack web app for daily meal logging and calorie tracking using Django ORM for efficient health metric retrieval.

Personal 3D Portfolio — React.js, Three.js, TailwindCSS

- Built an interactive 3D developer portfolio using Three.js WebGL rendering and React component architecture.

DEVOPS CAREER OBJECTIVE

Actively building skills towards a DevOps Engineer role. Currently deepening knowledge in Linux administration, shell scripting, Docker, Kubernetes, and CI/CD pipelines (Jenkins/GitHub Actions). Targeting cloud certifications (AWS/Azure) to complement hands-on experience in Python scripting, Git workflows, and enterprise technical support. Open to junior DevOps, Site Reliability, or Cloud Support roles as a stepping stone.
